

Here's the run down of what you need & what to do!

Gather your family, a couple of tote bags or backpacks, bibles, pen/pencil, this “passport”, hand sanitizer, and whatever else you need for an afternoon adventure!

Enter the GPS coordinates in a map app on your phone to reveal the location (within about 30 feet), then walk/bike/drive to it!

Search for the camouflaged container near the coordinates. Open the container and follow the instructions on it (taped to the underside of the lid). Be sure to put a sticker on this passport! Put the lid back on tight and put the container back as you found it. Don't forget to use hand sanitizer when done!

Repeat until you've found all 8!

Email or text your completed passport back to your church to win a prize!

Photograph your adventures and share them with us! Tag your church and/or the FoCoLu Facebook pages! #FoCoLuFamilyGeocacheAdventure
